Energy Policy Document

The management of the college has created awareness about the necessity of saving the electricity and the use of non-conventional energy as well as natural resources like sunlight and air. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis. This energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution.

Policies:

1. To utilize the natural resources of light namely sunlight and air, the entire college community is trained to keep windows and doors open on either side of the class-rooms, halls and laboratories.
2. To pay attention the switching off the lights when the classes or educational programmes are not held.
3. To install LED bulbs in the complete campus to save energy.
4. To develop systematic waste management mechanism.
5. To develop rain water harvesting unit.
6. To undertake tree plantation drive.
7. To spread the importance and usage of non-conventional energy and avoid the usage of conventional energy.
8. To assess our energy usage and measure its impact on the environment.
9. To engage in dialogue with the government agencies, municipal corporation and the affiliating university and actively work with the local organizations in the areas of environment, energy efficiency and sustainable development.

Thus, the investment on conventional energy is reduced and non-conventional energy is promoted. The Energy Policy, objectives and targets will be reviewed on a regular basis by the Eco Club Convener and its members under the guidance of the principal of the college.
